

The Fictional Republic : Horatio Alger and American Political Discourse: Horatio Alger and American Political Discourse, 1994, 13 pages, Carol Nackenoff Associate Professor of Political Science Swarthmore College, 0195344847, 9780195344844, Oxford University Press, 1994

Investigating the persistence and place of the formulas of Horatio Alger in American politics, *The Fictional Republic* reassesses the Alger story in its Gilded Age context. Carol Nackenoff argues that Alger was a keen observer of the dislocations and economic pitfalls of the rapidly industrializing nation, and devised a set of symbols that addressed anxieties about power and identity. As classes were increasingly divided by wealth, life chances, residence space, and culture, Alger maintained that Americans could still belong to one estate. The story of the youth who faces threats to his virtue, power, independence, and identity stands as an allegory of the American Republic. Nackenoff examines how the Alger formula continued to shape political discourse in Reagan's America and beyond.
